The Regional Water Quality Control Board, Central Valley Region (Regional Water Board), will consider adopting revised Waste Discharge Requirements (WDRs) for Bieber Class III Municipal Solid Waste Landfill at its meeting on **6/7 December 2007**. The revision requires the Dischargers to perform post-closure maintenance and corrective action monitoring in response to identified groundwater impacts at the site.

Electronic copies of the proposed tentative WDRs and the Notice of Public Hearing are available for viewing and downloading on our website at [www.waterboards.ca.gov/centralvalley/tentative](http://www.waterboards.ca.gov/centralvalley/tentative). The Notice of Public Hearing contains important information about the public hearing process. Electronic copies of the April 2000 *Standard Provisions and Reporting Requirements for Nonhazardous Solid Waste Discharges Regulated by Title 27 and/or Subtitle D* that would be adopted as part of the WDRs may be obtained at [www.waterboards.ca.gov/centralvalley/adopted\\_orders](http://www.waterboards.ca.gov/centralvalley/adopted_orders).
